learn how to plan for and respond to disasters preparing nurses for disaster management a global perspective helps you build the skills you need to prepare for respond to and recover from emergency situations efficiently and effectively it includes the personal stories of nurses who have experienced disasters describing the specific incident the response what worked or didn't work and the lessons learned case studies show how to apply international response guidelines in providing care for those in need written by joanne langan an internationally known expert in disaster preparedness this reference will help you feel more confident in handling the aftermath of both natural and man made disasters coverage of disaster management includes the stages of disaster response nursing roles and personal case studies of actual disasters and public health emergencies around the world e.g. natural disasters global earthquakes radiation disasters chemical disasters biologic or infectious disease outbreaks and man made disasters actual disasters unit provides a description of each event preparedness response recovery personal preparedness equipment legal and ethical issues special considerations and lessons learned tabletop exercises and drills allow organizations and institutions to assess their readiness determine community vulnerabilities and prepare appropriate responses to disaster events such as an active shooter cyberattacks and the grid power going down case studies help you learn to apply concepts to practice user friendly content includes definitions of key terms and the role expectations for different nurse specialties and levels discussions of international council of nurses core competencies in disaster nursing use this benchmark as an outline for effective nursing practice before during and after disasters reviews of psychiatric mental health issues discuss interventions to improve mental health following disasters expert contributors share perspectives and experience from a number of different countries

the federal emergency management agency fema assists states and localities overwhelmed by or at risk from disasters fema also coordinates emergency management activities and planning for the continuity of government should national security be threatened since 1979 fema has administered a range of authorities that enable the agency to serve as the primary source of federal technical and financial assistance for emergency management among the types of aid provided through fema programs are grants and material to help disaster victims meet pressing needs such as food and shelter education and training programs to improve the response capabilities of non federal officials and mobile communications equipment fema exercises little regulatory authority but directives that underlie the agency's mission

authorise the agency to establish standards for reconstruction of buildings after a disaster declaration is issued for the construction of federal buildings in earthquake prone areas and for the operation of first responder equipment fema has responded to and has helped communities prepare for terrorist attacks in the united states the office of homeland security ohs established by president bush subsequent to the attacks in 2001 has a similar but more encompassing mission related to disasters caused by terrorist actions congressional debate on the contours and framework for federal administration of homeland security might include consideration of fema s mission the extent to which that mission overlaps with the assignments given the new ohs and a new structure or set of authorities for that agency

it is the contention of the author that the major events of the past the wars the depressions and the revolutions have been planned years in advance by an international conspiracy page 4 of cover
