the virginia department of transportation may be asked to consider proposed transportation projects that have not originated within the transportation planning process examples include offers by the private sector to build infrastructure in exchange for permission to develop land advocacy by a regional government to add an interchange to a national highway system route to encourage economic growth a city s plan to narrow an arterial facility to increase community cohesion and a county s request for pedestrian crossings on a high speed arterial facility this report refers to these proposals as stand alone projects in the short term stand alone projects may have significant merit as they can result in the provision of additional infrastructure or improved relations between state and local stakeholders in the long term they may not be beneficial if they result in adverse safety or operational consequences for the overall transportation system stand alone proposals are difficult to evaluate because they lack detailed data have not been studied as part of a region s planning process require a relatively short response time and are not discussed in the literature this report describes stand alone projects that have been proposed in virginia describes a methodology for evaluating them and applies the methodology to two such projects 1 a developer s proposal to provide additional infrastructure as part of a desired rezoning and 2 a county s request to accommodate pedestrians on a 45 mph arterial facility bisecting residential and commercial development application of the methodology

yielded the advantages and disadvantages for each proposal for example although the first project will reduce mainline delay for one facility it will increase queue delay on another will preclude the construction of two interchanges and will increase delay overall yet the methodology also reveals that there is not necessarily a best answer although the second project showed that a pedestrian overpass could accommodate pedestrian crossings at a capital cost of 0 16 per pedestrian crossing compared to a capital cost of less than 0 01 per crossing for a pedestrian phase at an existing signal neither alternative ensured that pedestrian risk would be minimized because pedestrian compliance with traffic laws could not be forecast precisely given the data available in such situations the utility of the methodology is that it delineates aspects of the proposal that can be assessed with available data in contrast to those that require judgment by decision makers because the study found that stand alone projects are more common than expected and that they may yield negative or positive results the report recommends that the methodology developed in this study be considered where stand alone projects are to be evaluated and no other planning process is applicable depending on the availability of data the level of accuracy desired and the ability of the analyst to select the most appropriate performance measures the methodology requires roughly 40 person hours and does not require specialized software

with newly introduced 2 term examination pattern cbse has eased out the pressure of preparation of subjects and cope up with lengthy syllabus introducing arihant s cbse term ii 2022 series the first of its kind that gives complete emphasize on the rationalize syllabus of class 9th to 12th the all new cbse term ii 2022 english language and literature of class 10th provides explanation and guidance to the syllabus required to study efficiently and succeed in the exams the book provides topical coverage of all the chapters in a complete and comprehensive manner covering the 50 of syllabus as per latest term wise pattern 2021 22 this book consists of 1 complete theory in each chapter covering all topics 2 case based short and long answer type question in each chapter 3 coverage of ncert ncert examplar board exams questions 4 complete and detailed explanations for each question 5 3 practice papers base on entire term ii syllabus table of content reading reading comprehension writing skills formal letters analytical paragraphs grammar tenses modals subject verb concord determiners reported speech commands requests statements questions integrated grammar exercise literature first flight prose glimpses of india madam rides the bus the sermons at benares the proposal play first flight poetry amanda animals the tale of custard the dragon foot prints without feet supplementary the making of a scientist the necklace the hack driver bholi practice papers 1 3
