throughout their number one selling introductory psychology franchise authors saundra ciccarelli and j noland white employ a learner centered assessment driven approach that maximizes student engagement and helps educators keep students on track now in its third edition psychology an exploration draws students into the discipline by showing how psychology relates to their own lives clear learning objectives based on the recommended apa undergraduate learning outcomes guide students through the material

the present work discusses the phenomenon of conservatism from a qualitative cultural psychological perspective as such the text breaks with current mainstream research about political ideologies wanting to assess a political culture within the simple administration of a questionnaire the springerbrief will oppose such a perspective trying to assess how the conservative minded person will structure space and time in peculiar ways in the first part of the study participants were invited to reflect about how they preserve or conserve meaning in various activities whereas the second part of the study tried to shed light onto how something preservable or conservable comes into being and what it actually makes it preservable here an autoethnographic study revealed that something becomes meaningfully preservable when it satisfies multiple demands of the self as well as of the environment readers will realize the insufficiency of the positivistic attitude analyzing conservatism from a simple quantitative perspective and researchers are shown how political ideologies or cultures can be assessed ecologically something that has not yet been undertaken this leads to an appeal for scientists to study the phenomenon of conservatism more wholistically

in fieldnotes from a depth psychological exploration of evil robin l gordon presents an accessible account of an attempt to define and understand the nature of evil gordon takes on the role of guide to this confusing land tying together threads of jungian theory philosophy etymology neuroscience and history as we are led on a personal journey of discovery gordon begins by analysing what a twelfth century meeting between chinggis khan and taoist priest ch ang ch un can tell us about the presence of opposing traits and the nature of evil in human beings we learn what depth psychology has said about evil and the shadow part of our psyches and examine examples of human behaviour throughout history to understand the etymological philosophical and historical understandings and definitions of evil gordon s own relationship with her work and the feelings that arise when researching the psychological framework of nazi doctors genocide in rwanda bosnia and syria and the functionality of serial killers are interrogated we then return to chinggis khan s and ch ang ch un s relationship attempting to build a real and practical definition of evil and assessing their dialogues as a metaphor for jung s views of the transcendent function fieldnotes from a depth psychological exploration of evil will be essential reading for academics and students of jungian and post jungian studies sociology criminology and philosophy it will also be a key resource for jungian analysts and psychotherapists interested in the study of evil and its impact on society and the psyche as well as anyone investigating and redefining their own meanings of evil past and present
