in 1972 i felt impressed of the lord to write a book about my life and ministry he even gave me the title with god as my partner i voiced my objection in prayer by reminding him that i had only been preaching for three years and pastoring for one i had no experience in writing but all i heard in return was not now i went through life with many experiences both good and bad piling up through the years about four years ago my wife said ron why don t you write a book about your life and ministry i didn t have any good answer for her and since she is my best friend my closest confidant and my dearest prayer partner i gave it some serious thought in the following year i came in contact with three or four others who asked me the same

thing in view of this i went to the lord in sincere prayer and he said now is the time the book is not really in any chronological order but goes back and forth at times as i remember things again the only way i could remember times people and names is with god as my partner i was not striving to produce any item of literary art but something that could be shared with others what god has shared with me through the years it has been an interesting journey and i look forward to continuing it when i gave the book its title it was with a sense of humility and not arrogance i am well aware of the fact that the only way i or anyone else can partner with god is by his grace realizing that it is all for his glory

collision reconstruction methodologies volume 7b the last ten years have seen explosive growth in the technology available to the collision analyst changing the way reconstruction is practiced in fundamental ways the greatest technological advances for the crash reconstruction community have come in the realms of photogrammetry and digital media analysis the widespread use of scanning technology has facilitated the implementation of powerful new tools to digitize forensic data create 3d models and visualize and analyze crash vehicles and environments the introduction of unmanned aerial systems and standardization of crash data recorders to the crash reconstruction community have enhanced the ability of a crash analyst to visualize and model the components of a crash reconstruction because of the technological changes occurring in the industry many sae papers have been written to address the validation and use of new tools for collision reconstruction collision reconstruction methodologies volumes 1 12 bring together seminal sae technical papers surrounding advancements in the crash reconstruction field topics featured in the series include night vision study and photogrammetry vehicle event data recorders motorcycle heavy vehicle bicycle and pedestrian accident reconstruction the goal is to provide the latest technologies and methodologies being introduced into collision reconstruction appealing to crash analysts consultants and safety engineers alike

the acclaimed author assembles a stellar collection of twenty stories that create their own worlds in twenty pages or less usa today tom perrotta explains in his introduction that all of these stories took me somewhere i didn t expect to go and jolted me into that state of heightened awareness and emotional receptivity that s one of the great rewards of reading good fiction in nathan englander s what we talk about when we talk about anne frank a playful discussion between two married couples veers into darker territory exposing a secret that might have been better left unspoken taiye selasi writes a portrait of a motherless girl in africa where her transition into womanhood may not be cause for celebration adam wilson s entry gives us a window onto a movie set where the narrator aches for something cinematic to happen in his life roxane gay s north country introduces us to an unlikely couple who circle each other in a wary dance of approach and avoidance an unexpected visitor kicks off a wonderfully strange fable about how we look at ourselves in steven millhauser s miracle polish

invasion of the most sacred is a war and espionage love and betrayal story about consequentialism set in the year 2017
