in this practical guide to teaching beginning language learners of all ages calhoun encourages us to begin where the learners begin with their developed listening and speaking vocabularies and other accumulated knowledge about the world engage students in shaking words out of a picture words from their speaking vocabularies to begin the process of building their reading and writing skills use the picture word inductive model pwim to teach several skills simultaneously beginning with the mechanics of forming letters to hearing and identifying the phonetic components of language to classifying words and sentences through forming paragraphs and stories based on observation built into the pwim is the structure required to assess the needs and understandings of your students immediately adjust the lesson in response and to use explicit instruction and inductive activities individual small group and large group activities are inherent to the model and flow naturally as the teacher arranges instruction according to the 10 steps of the pwim students and teachers move through the model and work on developing skills and abilities in reading writing listening and comprehension as tools for thinking learning and sharing ideas note this product listing is for the adobe acrobat pdf version of the book

this book is packed with dozens of field tested lessons for helping english language learners develop proficient reading skills

teacher retention is an area of great concern across the globe as it appears many teachers leave the field after only a few years especially those serving low income students there is a growing gap from preparation to practice not only must educator preparation programs epps be diligent in utilizing systematically effective methods of preparing novice teachers but schools must also be cognizant of the need for continued mentorship and quality professional development that matches the unique needs of their novice teachers when novice teachers enter the profession they must be offered explicit and scaffolded opportunities for continued learning in order to bridge the theoretical aspects of teaching learned in a preparation program to the practical application of a classroom school setting as these opportunities differ from the needs of veteran teachers collaborative approaches to recruiting preparing and retaining teachers for the field provides a collection of theoretical application and research based information regarding a variety of viewpoints and strategies that educator preparation programs must be cognizant of in order to meet the varied and individualized needs of novice teachers so that the academic behavioral and or social emotional needs of their students are effectively supported overall this book recognizes the constant need for improvement within educator preparation programs and school systems

showcases that teacher retention is a concern across the united states and globally and shows how educator preparation programs and schools districts must reach across the boundaries of content specificity and collaborate to prepare teacher candidates most effectively covering topics such as teacher retention collaborative partnerships and growth mindset this book is essential for educational preparation faculty educational leadership faculty p 12 general and special education teachers administrators government officials pre service teachers students researchers and academicians

this is an open access book faculty of teacher training and education of the university of mataram proudly presents the 4th annual conference on education and social science access in 2022 access is an iconic international scientific forum which discusses new ideas and innovations especially those related to education and pedagogy generally in relation to sciences and technology since 2019 access has been attended by hundreds of participants from various different countries such as the united states malaysia australia philippines japan singapore and so on

meeting a tremendous need for k 8 schools and educators this timely book outlines core principles for counteracting the disruptions of the pandemic and recovering from learning loss the authors present a holistic approach to responsive literacy instruction to support all students academic and social emotional growth now and in the years to come fundamental areas of learning recovery are addressed developing schoolwide action plans partnering with families and communities building collaborative literacy leadership assessing for differentiated instruction planning targeted interventions and implementing supplemental learning programs every chapter includes relevant research findings clear examples of principles in action and reflection questions that help educators apply the concepts they have learned

our goal was to produce a book that provides a wide variety of suggestions for instructional practice that is consistent with our beliefs in effective teaching techniques we have tried very hard to include only those recommendations that have been validated through research and that teachers tend to regard as practical this task has not been easy because of the multitude of ideas now in the literature rather than offer a comprehensive review of these ideas we have sifted through them in a search for those that have proved both practical and effective

this practical book provides clear hands on guidance for supervising teachers and encouraging professional growth it presents a widely accepted and flexible model of clinical supervision as well as research based and field tested strategies

making mathematics concepts understandable is a challenge for any teacher a challenge that is more complex when a classroom includes students with learning difficulties with this highly practical resource educators will have just what they need to teach mathematics with confidence research based strategies that really work with students who have learning disabilities adhd or mild cognitive disabilities this urgently needed guidebook helps teachers understand why students struggle teachers will discover how the common learning characteristics of students with learning difficulties create barriers to understanding mathematics review the big ideas are teachers focusing on the right things a helpful primer on major nctm endorsed mathematical concepts and processes helps them be sure directly address students learning barriers with the lesson plans practical strategies photocopyable information gathering forms and online strategies in action teachers will have concrete ways to help students grasp mathematical concepts improve their proficiency and generalize knowledge in multiple contexts check their own strengths and needs educators will reflect critically on their current practices with a thought provoking questionnaire with this timely book filled with invaluable ideas and strategies adaptable for grades k 12 educators will know just what to teach and how to teach it to students with learning difficulties

this book is a compendium of strategies it is not a description of a single approach nor is it intended to be eclectic the inclusion of a strategy should not be perceived as our endorsement of that strategy there are some strategies that we view as problematic there are others about which we disagree

dedicated to research based practices only as opposed to opinion based practices this text provides in depth coverage of validated methods that may be applied to teaching across all the content areas the authors emphasize effective teaching behaviors regardless of the content being taught this book helps bridge the research to practice gap and includes less is more approach limiting content to validated practices results in more thorough descriptions of the selected practices than what is typically found in methods books models the organizational structure of the book reflects the sequential process involved in effective teaching and learning i e planning instruction delivering instruction and evaluating student and teacher performance formative review questions are provided after chapters 3 7 and 10 and a summative review is provided after chapter 10 to promote synthesis and retention of important concepts each chapter is organized to model effective pedagogy overarching themes the content is grounded in overarching themes i e student diversity importance of quality instruction technology applications and career long learning among teachers that reflect accurate understandings of current school contexts

this book provides a tool for teachers to understand various instructional frameworks underlying diagnostic teaching techniques adds a chapter selecting instructional materials

the third edition of teaching reading comprehension processes is a comprehensive and eclectic book on teaching reading comprehension in the elementary grades the overarching goal of this text is to encourage critical thinking and to challenge readers to examine preconceived ideas and beliefs about teaching comprehension this well researched text is a comprehensive overview of how the relationship among reader text and situation affects the reading process and why comprehension takes place the third edition explores various and contending schools of thought in reading comprehension research and successfully gives students perspective on the socio cultural influences on reading comprehension

grade level 1 2 3 4 5 6 7 8 9 10 11 12 p e i s t

explicit instruction is systematic direct engaging and success oriented and has been shown to promote achievement for all students this highly practical and accessible resource gives special and general education teachers the tools to implement explicit instruction in any grade level or content area the authors are leading experts who provide clear guidelines for identifying key concepts skills and routines to teach designing and delivering effective lessons and giving students opportunities to practice and master new material sample lesson plans lively examples and reproducible checklists and teacher worksheets enhance the utility of the volume purchasers can also download and print the reproducible materials for repeated use video clips demonstrating the approach in real classrooms are available at the authors website explicitinstruction.org see also related dvds from anita archer golden principles of explicit instruction active participation getting them all engaged elementary level and active participation getting them all engaged secondary level

this reader aims to give the background necessary in both the underlying research and the applications of language theory emphasizing the connections between theory research and pedagogy the readings should reflect the diverse and multicultural nature of today s classroom the book is designed to stand alone or to be used as a supplement to an introduction to linguistics text the text includes chapters on dialects teaching of grammar syntax and teaching english as a second language

this edition continues to promote a new vision of supervision from that of a top down activity performed by higher ups in the school hierarchy to one in which supervision is a shared activity involving all stake holders in the school including teachers administrators and parents the book sees schools as communities rather than organizations and emphasizes

the student teacher relationship rather than bureaucratic functions this edition of the text continues to emphasize the moral implications of supervision and teaching the revision places greater emphasis on the role of community and the link between the learning community students and teachers a new chapter 4 community as a force for change argues that teachers must assume more responsibility in order to bring about reform chapter 6 now redefines collegiality more deeply as a self obligation to collaborate with others
