this fascinating book explains the processes of suburbanization in the context of post socialist societies transitioning from one system of socio spatial order to another case studies of seven central and eastern europe city regions illuminate growth patterns and key conditions for the emergence of sprawl breaks new ground offering a systematic approach to the analysis of the global phenomenon

of suburbanization in a post socialist context tracks the boom of the post socialist suburbs in seven cee capital city regions budapest ljubljana moscow prague sofia tallinn and warsaw situates the experience of the cee countries in the broader context of global urban change case studies examine the phenomenon of suburbanization along four main vectors of analysis related to development patterns driving forces consequences and impacts and management of suburbanization highlights the critical importance of public policies and planning on the spread of suburbanization

this volume presents a compilation of research works in civil engineering all manuscripts in this volume were presented during the 2nd international conference on architecture and civil engineering icace 2018 which was held at parkroyal hotel penang malaysia on 09 10 may 2018 the editor s of the proceeding would like to express the utmost gratitude and thanks to all reviewers in the technical team for making this volume a success

the book explores both theoretically and empirically the impacts of housing reforms on housing provision in the context of the transition from a centrally planned to a market based economy fifteen years after the overthrow of state socialism housing policy has lost its privileged status of a political priority as most politically emb ded systems had favoured market based solutions to housing problems this dep ture from state controlled housing policies with the aim of providing a dwelling for every family is significant particularly in some post socialist countries where no new housing policy has emerged the transition process embedded in the paradigm shift from central planning to markets has triggered off turbulence and adjustments with tangible outcomes in post socialist housing systems what has changed and what new housing systems have emerged during this dramatic transition to markets and democracy are these systems more efficient and equitable these questions are the main focus of the book with an emphasis on diversity and change in housing reforms the book supports the hypothesis that notions of convergence are not really appropriate to the conceptualisation of post socialist housing systems it argues that different housing policy choices are going to map out increasingly divergent s nario for future development

drawing on the oecd competition assessment toolkit this report identifies 227 problematic regulations in romania and makes 152 specific recommendations on legal provisions that should be amended or repealed

sustainable innovation in the middle east and north africa mena region has gained

momentum driven by environmental concerns economic strategies and investments in renewable energy and green technologies countries like the united arab emirates saudi arabia morocco and egypt lead the way by implementing sustainability agendas blending technological advancement with environmental stewardship further research may highlight how sustainable innovation in the mena region addresses climate challenges and creates new economic opportunities reshaping global perceptions of the region sustainable innovation in the middle east and north africa mena region explores the connection between sustainability and innovation in the middle east and north africa mena region it provides real world insights and solutions to achieve sustainable development goals this book covers topics such as blockchain digital technology and solar cities and is a useful resource for business owners government officials policymakers academicians researchers and scientists
