deuteronomy characterizes memory as the key to israel s covenantal loyalty and commands its cultivation in the generations to come and the book portrays itself as the foundation for this ongoing memory program for this reason deuteronomy is considered to be an ancient

collective memory text however recent scholarship has not focused on the book as a formative agent leaving fundamental questions about the book unanswered why does deuteronomy see memory as important in the first place how does it seek to cultivate this memory in the people a j culp answers these questions by exploring deuteronomy as a formative memory text and bringing contemporary memory theory into dialogue with biblical scholarship culp shows that deuteronomy has tailored memory to its unique theology and purposes a fact that both illuminates puzzling aspects of the text and challenges long held views in scholarship such as those regarding aniconism

in this book professor ghahreman khodadad illuminates the basis of human behavior by

examining the structures that underline antisociality the book's central thesis is that antisocial people are so thanks to biological and neurological structures the principle of structure to function is used to argue that the brain without us being conscious of it produces our behaviors if this claim is correct then antisocial individuals are not accountable for their antisocial behavior and they should be treated respectfully instead of being punished furthermore prisons should accordingly be converted into rehabilitation treatment and behavioral research centers this is a book for the general reader who is interested in the basis of human behavior it should also be of interest to psychologists psychiatrists neuroscientists geneticists neurobiologists and philosophers
