in advancing disciplines like geography the methodological debate is a sign of health in geography there has been extreme diversity of viewpoints on both philosophy and methodology with constant extension and also a shift in focus the methodology of

geography came under debate for the first time during the middle of twentieth century when the paper published by f k schaefer an american scholar brought both the qualitative and quantitative revolution in geographic development shortly after this publication were discussed the paradigmatic shifts in a discipline by thomas s kuhn another american scholar through his seminal work in which he painted a picture of the development of science quite unlike that had gone before in order to elucidate this process of development of science kuhn prepared a model termed as the paradigm of science distinct parallels may be sought between the historical evolution of scientific discipline as explained by thomas kuhn and the historical evolution of the discipline of geography seeking inspiration from the works of both of the great scholars mentioned above the present book examines the evolution of geographical thought from the perspective of thomas kuhn two publications of mine 2008 2014 are on this line only however the methodological literature to understand the philosophical background making possible this disciplinary growth is too small the purpose here is to explore and screen the growth and development of geography under sequential methodological changes over time in the light of various paradigmatic shifts with the acknowledgement of crises and revolutionary phases of development in the discipline accordingly the work identifies eight paradigmatic shifts intercepted by eight phases of crises in the discipline

this festschrift honours prof rana p b singh who has dedicated his life to teaching and conducting research on cultural geography with a dweller indian perspective the book focuses on the cultural geographies of india and to an extent that of south asia it is a rich collection of 23 essays on the themes apprised by him covering landscapes religion heritage pilgrimage and tourism and human settlements

human geography is a wide ranging subfield that is intertwined with virtually every other academic field the spatial perspective is this connection which basically means that if a phenomenon can be mapped it has some connection to geography geographical knowledge is essential to a competent comprehension of our global environment and the study of the entire world is an intriguing field in this section a reader will realize what topography is as well as a portion of the crucial ideas that support the discipline as you progress through the subsequent chapters a solid understanding of these fundamental terms and ideas is essential because they will be interwoven throughout the text this textbook is an introduction to the study of human geography it gives new geographers a simple way to get started in the field while also encouraging readers to dig deeper and learn more
