whether one describes them as sequential art graphic narratives or graphic novels comics have become a vital part of contemporary culture their range of expression contains a tremendous variety of forms genres and modes from high to low from serial entertainment for children to complex works of art this has led to a growing interest in comics as a field of scholarly analysis as comics studies has established itself as a major branch of criticism this handbook combines a systematic survey of theories and concepts developed in the field alongside an overview of the most important contexts and themes and a wealth of close readings of seminal works and authors it will prove to be an indispensable handbook for a large readership ranging from researchers and instructors to students and anyone else with a general interest in this fascinating medium

literary scholars face a new and often baffling reality in the classroom students spend more time looking at glowing screens than reading printed text the social lives of these students take place in cyberspace instead of the student pub their favorite narratives exist in video games not books how do teachers who grew up in a different world engage these students without watering down pedagogy clint burnham and paul budra have assembled a group of specialists in visual poetry graphic novels digital humanities role playing games television studies and yes even the middle brow novel to address this question contributors give a brief description of their subject investigate how it confronts traditional notions of the literary and ask what contemporary literary theory can illuminate about their text before explaining how their subject can be taught in the 21st century classroom

modernist parasites bioethics dependency and literature post 1900 analyzes biological and social parasites in the political scientific and literary imagination with the rise of darwinism eugenics and parasitology in the late nineteenth century sebastian williams posits that the parasite came to be humanity s ultimate other a dangerous antagonist but many authors such as isaac rosenberg john steinbeck franz kafka clarice lispector nella larsen and george orwell reconsider parasitism ultimately parasites inherently depend on others for their survival illustrating the limits of ethical models that privilege the discrete individual above interdependent communities

as gregor samsa awoke one morning from uneasy dreams he found himself transformed in his bed into a gigantic insect so begins kafka s the metamorphosis the most subtly disturbing story in modern literature illustrations
