this book provides students and other interested readers with a comprehensive survey of  
science fiction history and numerous essays addressing major science fiction topics authors  
works and subgenres written by a distinguished scholar this encyclopedia deals with written  
science fiction in all of its forms not only novels and short stories but also mediums often  
ignored in other reference books such as plays poems comic books and graphic novels some  
science fiction films television programs and video games are also mentioned particularly  
when they are relevant to written texts its focus is on science fiction in the english language  
though due attention is given to international authors whose works have been frequently  
translated into english since science fiction became a recognized genre and greatly  
expanded in the 20th century works published in the 20th and 21st centuries are most

frequently discussed though important earlier works are not neglected the texts are designed to be helpful to numerous readers ranging from students first encountering science fiction to experienced scholars in the field

rudolf kjellén regularly referred to as the father of geopolitics developed in the first decade of the twentieth century an analytical model for calculating the capabilities of great power states and promoting their interests in the international arena it was an ambitious intellectual project that sought to bring politics into the sphere of social science bringing together experts on kjellén from across the disciplines territory state and nation explores the century long international impact analytical model and historical theories of a figure immensely influential in his time who is curiously little known today

policy analysis in australia offers a distinctly australian interpretation of policy scholarship with eighteen chapters strongly reflecting the outstanding contributions of australian scholars to the field of public policy it provides a coherent overview of the strengths and opportunities for policy analysis in australia it recognises that government agencies are no longer regarded as the sole source of sound policy analysis and takes a broad view of policy analysis capacity both within institutions at all levels of government and beyond government in the media political parties business and non government associations it provides a valuable contribution to australian scholarship about policy analysis in academic professional teaching and learning contexts and is a key addition to research and teaching in comparative policy analysis and policy studies more generally

in today s world we cooperate across legal and cultural systems in order to create value however this increases volatility uncertainty complexity and ambiguity as challenges for societies politics and business this has made governance a scarce resource it thus is inevitable that we understand the means of governance available to us and are able to economize on them trends like the increasing role of product labels and a certification industry as well as political movements towards nationalism and conservatism may be seen as reaction to disappointments from excessive cooperation to avoid failures of cooperation governance is important control through e g contracts is limited and in governance economics trust is widely advertised without much guidance on its preconditions or limits this book draws on the rich insight from research on trust and control and accommodates the key results for governance considerations in an institutional economics framework it provides a view on the limits of cooperation from the required degree of governance which can be achieved through extrinsic motivation or building on intrinsic motivation trust control economics thus inform a more realistic expectation about the net value added from cooperation by providing a balanced view including the cost of governance it then becomes clear how complex cooperation is about governance accretion where limited trustworthiness is substituted by control and these control instances need to be governed in turn trust control and the economics of governance is a highly necessary development of institutional

economics to reflect progress made in trust research and is a relevant addition for practitioners to better understand the role of trust in the governance of contemporary cooperation structures it will be of interest to researchers academics and students in the fields of economics and business management institutional economics and business ethics note that this work is the first of its kind that explicitly reflects on the societal realities how these drive the assumption setting process and how these assumptions influence the theory outcome

the volume consists of twenty five chapters selected from among peer reviewed papers presented at the celda cognition and exploratory learning in the digital age 2013 conference held in fort worth texas usa in october 2013 and also from world class scholars in e learning systems environments and approaches the following sub topics are included exploratory learning technologies part i e learning social web design part ii learner communities through e learning implementations part iii collaborative and student centered e learning design part iv e learning has been since its initial stages a synonym for flexibility while this dynamic nature has mainly been associated with time and space it is safe to argue that currently it embraces other aspects such as the learners profile the scope of subjects that can be taught electronically and the technology it employs new technologies also widen the range of activities and skills developed in e learning electronic learning environments have evolved past the exclusive delivery of knowledge technology has endowed e learning with the possibility of remotely fomenting problem solving skills critical thinking and team work by investing in information exchange collaboration personalisation and community building

this edited volume focuses on the historical role of the oecd the organisation for economic co operation and development in shaping global education policy in this book contributors shed light on the present day perspective of comparative education as a logical addition to current scholarship on the history of international organizations in the field of education doing so the book provides a deeper understanding of contemporary developments in education that will enable us to reflect critically on the trajectories and future developments of education worldwide

this book examines the educational role of three international organizations created as part of the post world war ii multilateral architecture the united nations educational scientific and cultural organization unesco the world bank and the organisation for economic co operation and development oecd these organizations have significantly promoted and shaped education as a fundamental feature of the modernization of society and contributed to the

globalization of educational norms policies and technologies drawing on primary source materials and interviews the book provides novel perspectives to the literature on the global governance of education by focusing on the historical entanglements relations and power struggles between these three organizations rather than treating them separately the study sheds light on the homogenizing effects of globalized educational policy making and the shifting power dynamics in the global governance of education this book makes a very distinctive and important contribution to the literature that critically analyses the influence of the global agencies on education globally it goes beyond the standard discursive analyses of policy texts to also explore the history of those organisations through archival research and in depth interviews of the key personnel what emerges is a powerful analysis which locates those agencies within their historical epochs and shines a light on their tensions and micro politics both internally and between organisations paul morris professor of comparative education institute of education university college london uk a must read historical account of the intermingling boundary setting and competition between the three big intergovernmental organizations ios in education oecd unesco and the world bank different from other scholars that document how these ios have transformed themselves in response to external and internal changes elfert and ydesen draw attention to the relational aspect how have these three ios navigated conflict carved niches and used and abused each other to amplify and expand their own mission how have they done so in an environment that is crowded with intergovernmental and international organizations each with a claim to govern education globally gita steiner khamsi professor of comparative and international education teachers college columbia university unesco chair of comparative education policy of the geneva graduate institute of international and development studies this volume is a thoughtful and timely work of scholarship understanding the roles of unesco the oecd and the world bank is central to understanding contemporary education in global perspective elfert and ydesen s historical analysis sets out in rigorous detail how these organisations have evolved and what has shaped and driven this evolution the historical analysis is complemented by contemporary interview data facilitating an actor level analysis as well as a broader picture the book is conceptually and theoretically rich while being accessibly written the authors manage complexity remarkably well for anyone interested in global governance and the role of international organisations or anyone who wants to understand in general how global educational agendas have developed and converged this book is a most valuable read michele schweisfurth professor of comparative and international education university of glasgow uk chapter unesco the oecd and the world bank a global governance perspective is available open access under a creative commons attribution 4 0 international license via link springer com
