this book is addressed to the students of gap and ade degrees it contains the two following subjects contracts and companies gap and commercial law ade and it adjusts perfectly to the requirements of its study exigences 100 that is the reason why it follows an unusual order among mercantilists since it brings together content that usually appears in different volumes thus students will have in their hands all the theoretical content of the subject and it will be essential for them whether they follow the subject physically attending classes or remotely through the virtual modality of the gap degree the study plans for these degrees have minimal legal content i would even say ridiculous at gap they do study law in other subjects but only public law never private that is why the manual begins with an introductory topic 1 on the historical origin and concept of commercial law the topic is explained at length because it is essential and would not be understood otherwise topic 2 on the concept

the principles of european law on commercial agency franchise and distribution contracts pel cafdc 2006 are an academic proposal of the study group on a european civil code for the european wide regulation of the contents of these three types of agreements the academic analysis franchising in european contract law focuses on the harmonised principles on franchising at present all member states of the eu have their own regulation

on franchising this situation might change in the light of the political process of europeanization of contract law that was initiated by the european commission in 2001 as a result of that process the principles on franchising could be declared a set of rules which might be opted for by the parties to franchising contracts europe wide to govern their relationship in this analysis the main obligations in franchising in pel cafdc are compared with those under french and spanish law the main conclusion of this thesis research has been that the main obligations of parties in franchising under the pel cafdc resemble those under french and spanish law eventually differences will arise depending on how national courts weigh the interests of the parties in each case a second conclusion has been that a choice for the pel cafdc instead of for french and spanish law could be considered a rational alternative concerning the applicable system of remedies and legal certainty
