this book sets out the principles of engineering practice knowledge that has come to light through more than a decade of research by the author and his students studying engineers at work until now this knowledge has been almost entirely unwritten passed on invisibly from one generation of engineers to the next what engineers refer to as experience this is a book for all engineers it distils the knowledge of many experts in one volume the book will help engineers enjoy a more satisfying and rewarding career and provide more valuable results for their employers and clients the book focuses on issues often seen as non technical in the world of engineering yet it shows how these issues are thoroughly technical engineering firms traditionally have sought expert advice on these aspects from management schools often regarding these aspects of engineering

practice as something to do with psychology or organisational behaviour the results are normally disappointing because management schools and psychologists have limited insight and understanding of the technical dimensions in engineering work little if any of the material in this book can be obtained from management texts or courses management schools have avoided the technical dimension of workplace practices and that is precisely what characterises engineering practice the technical dimension infuses almost every aspect of an engineer's working day and cannot be avoided that's why this book is so necessary there has not yet been any authoritative source or guidance to bridge the gap between inanimate technical issues and organisational behaviour this book fills this gap in our knowledge is based on rigorous research and yet is written in a style which is accessible for a wide audience

reproduction of the original the antigonos publishing house specialises in the publication of reprints of historical books we make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

the making of an african king is a study examining the causes of the kingship internecine struggle among the effutu by exploring the two traditional systems of succession the patrilineal and the matrilineal among the effutu awutu abe and how best to end political violence kingship or chieftaincy disputes in ghana may begin as rivalry among members of the same family or when ineligible elders are elected caretaker kings because of their invaluable services to a royal family however upon the demise of the caretakers their descendants refuse to cede power back to the royal family thus creating protracted power struggles this is exactly the situation among the effutu fortunately new information became available when the author was researching in ghana from 1997 1999 as a result this edition provides for the first time accounts of colonial

administrators about the royal internecine struggle in ways that confirm awutu orthodoxy and put concocted histories false genealogies and outright lies to rest

includes the institute s proceedings

report of the dominion fishery commission on the fisheries of the province of ontario 1893 issued as vol 26 no 7 supplement
