letter writing was widespread in the graeco roman world as indicated by the large number of surviving letters and their extensive coverage of all social categories despite a large amount of work that has been done on the topic of ancient epistolography material and formatting conventions have remained underexplored mainly due to the difficulty of accessing images of letters in the past thanks to the increasing availability of digital images and the appearance of more detailed and sophisticated editions we are now in a position to study such aspects this book examines the development of letter writing conventions from the archaic to roman times and is based on a wide corpus of letters that survive on their original material substrates the bulk of the material is from egypt but the study takes account of comparative evidence from other regions of the graeco roman world through analysis of developments in the use of letters variations in formatting conventions layout and authentication patterns according to the sociocultural background and communicational needs of writers this book sheds light on changing trends in epistolary practice in graeco roman society over a period of roughly eight hundred years this book will appeal to scholars of epistolography papyrology

palaeography classics cultural history of the graeco roman world

once nearly as ubiquitous as dictionaries and cookbooks are today letter writing manuals and their predecessors served to instruct individuals not only on the art of letter composition but also in effect on personal conduct poster and mitchell contend that the study of letter writing theory which bridges rhetorical theory and grammatical studies represents an emerging discipline in need of definition in this volume they gather the contributions of eleven experts to sketch the contours of epistolary theory and collect the historic and bibliographic materials from isocrates to email that form the basis for its study
