the study of european archaeology dates back to the 19th century but the number of archaeologists projects and publications has increased greatly during the last three decades with the collapse of the soviet union and the restructuring of several countries archaeology in europe has more opportunity for interaction and research than previously was possible this comprehensive volume covers the prehistoric period in europe from the earliest appearance of humans to the rise of the roman empire and includes the paleolithic mesolithic bronze and iron ages throughout these periods the major developments and explored using the archaeological data including technology trade settlement warfare ritual using methodologies and theories that were previously unknown in europe decades ago new discoveries and arguments are included in the research as well as reevaluations of previous discoveries this work also includes a present geographical summary and how it impacts the current archaeological discoveries and research being conducted european prehistory a survey includes many comprehensive maps and site photos it will be a vital resource to prehistoric archaeologists anthropologists and historians in and outside of europe

this fully updated and revised edition of the best selling title the archaeology coursebook is a guide for students studying archaeology for the first time including new methods and key studies in this fourth edition it provides pre university students and teachers as well as undergraduates and enthusiasts with the skills and technical concepts necessary to grasp the subject the archaeology coursebook introduces the most commonly examined archaeological methods concepts and themes and provides

the necessary skills to understand them explains how to interpret the material students may meet in examinations supports study with key studies key sites key terms tasks and skills development illustrates concepts and commentary with over 400 photos and drawings of excavation sites methodology and processes tools and equipment provides an overview of human evolution and social development with a particular focus upon european prehistory reflecting changes in archaeological practice and with new key studies methods examples boxes photographs and diagrams this is definitely a book no archaeology student should be without

this book straddles the disciplines of archaeology and social anthropology its 25 contributions divided into 6 sections with separate introductions successively scrutinise the concept of war in philosophy social theory and the history of anthropological and archaeological research discuss warfare in pre state and state societies and assess its relationship to rituals social identification and material culture

eastern europe in this book embraces the area formally referred to as the marchlands of europe sometimes as eastern central europe and which included when this book was originally published in 1971 yugoslavia bulgaria rumania hungary czechoslovakia east germany and poland this book presented for the first time the archaeological material related to the prehistory of central and west europe describing the evidence for the earlier prehistory settlement patterns means of subsistence and material culture in the various natural environments of this area it looks at the baltic coast the north and east european plains the carpathian mountain ring the danube basin and the adriatic and black sea coasts the evidence for late mesolithic hunting fishing groups is examined their techniques and their reaction to the introduction and spread of agriculturalists as well as the development and activities of both food gatherers and food producers until the early use and manufacture of metal objects 3000 years of prehistory are covered in a way which is designed to be intelligible and useful to all those who are interested in prehistory and in eastern europe

this book is a wide ranging archaeological description and analysis of infancy the social constructions of infancy and the practices of infant care and social reproduction through time and across space the main themes are the ways in which infants have lived in and have been perceived by society the burial of the infant dead and the meanings of domestic infanticide and infant sacrifice it examines infancy as a process with meanings varying between and within societies and it addresses the relationships between infants and adults the contradictions which lie at the heart of attitudes to infants and the exclusion of neonates from communal life and communal burial are recurrent themes the whole is rounded off with a concluding chapter which aims to establish some general statements about past attitudes to infancy and the treatment of infants whilst stressing the particularity and specificity of the various historical contexts which have been examined

a thought provoking collection of essays which take a cognitive approach to landscape examining the phenomenology and symbolism of landscapes and monuments

numbers for 1958 73 include the annual reports of the institute for 1956 57 71 72

this is a highly original work that attempts to take fragmentation studies further towards integrating archaeology social anthropology and material culture and concerns the relationship between whole objects and broken ones the authors construct a new fragmentation premise and examine its implications for the balkans in the neolithic using case studies taken from the balkans and greece key issues covered include a biographical method of considering objects and their relation to the creation of personhood methodological issues of site formation a questioning of the assumption that excavated data is a more or less accurate reflection of the operation of past social practices and a discussion of what happened to pieces missing from an assemblage it

concludes by seeking to put balkan prehistory back together again by looking at variations in social practices and the construction of personhood at different socio spatial levels

the eneolithic period in bulgaria which covers the 5th millennium b c is a remarkable span of time in her prehistory for a very long time the idea of a rudimentary primitive mode of life and culture of the population which inhabited the bulgarian lands in that very distant epoch largely dominated the public mind
